

Levi, Ray & Shoup, Inc.

GROWTH THROUGH INNOVATION

Continuous innovation has resulted in dramatic growth for Levi, Ray & Shoup, Inc. since its founding in 1979. In the past quarter-century, LRS has grown from a local computer consulting company to a global information technology solutions provider. LRS maintains its corporate headquarters in Springfield, Illinois, and operates more than a dozen offices throughout the United States and around the globe.

Recognized as a global IT leader, LRS provides software in use at ninety-five percent of the Fortune 100 companies, a majority of Fortune 500 firms, and in 30 countries around the world. From our origins as a computer consulting firm, LRS has diversified into six major information technology areas.

Enterprise Output Management

LRS pioneered mainframe output distribution in 1981 and the company has been the industry leader in Enterprise Output Management (EOM) products ever since. The core EOM product, VTAM Printer Support (VPS), runs on more than 5,000 IBM mainframes worldwide. Today LRS offers a suite of EOM solutions including VPSX, a UNIX-based output server, as well as solutions certified for use with SAP R/3 software. EOM products securely manage and deliver documents to a wide range of printers and other output devices.

PensionGold® Retirement Solutions

Since 1987, PensionGold Retirement Solutions has been the leading provider of pension administration software and retirement services for the defined benefit marketplace. Strong pension industry expertise enables our staff to offer a full range of consultation, implementation, and education services. PensionGold uses the latest technology in application development and database management, ensuring that our products can quickly adapt to meet each customer's unique needs.

LRS® Education Services

LRS Education Services provides hands-on education to organizations needing quality IT training. Our highly skilled, certified instructors present all courses, leveraging years of real-world expertise. LRS Education Services is a Microsoft Gold Certified Partner for Learning Solutions and a Gold Novell Authorized Training Partner. Certification tracks cover networking, network management, and productivity software.

LRSSports® Software

LRSSports Software provides innovative, high-quality digital video editing, analysis, and scouting solutions for a variety of team sports. Hundreds of customers use our solutions - from high school teams to entire collegiate conferences, top collegiate teams, and professional teams. Working closely with coaches and video coordinators helps our developers create some of the most reliable and technologically advanced solutions in the sports video editing industry.

LRS Web Services

LRS Web Services offers award-winning creative design, custom application development, website construction and management, and reliable website hosting. Careful planning and project management insure that a client's message reaches the intended audience. As part of a technology firm with a global reach, LRS Web Services combines creative excellence with stability and technical depth to maintain long-term client relationships.

LRS IT Solutions

LRS has grown and diversified into many areas. That innovative spirit continues to thrive in the original IT consulting business as well. LRS IT Solutions and our industry-certified staff provide application development, business intelligence, infrastructure, storage management, disaster recovery, and portal consulting services. LRS IT Solutions is a recognized service leader, having earned IBM Premier Business Partner and Microsoft Gold Certified Partner status along with many other industry certifications.
